

Livestock Guarding Dog Sponsorship Form

The Livestock Guarding Dog Program is one of CCF's most successful programs. The CCF breeds and places Kangal Anatolian puppies, free, with commercial and communal farmers throughout Namibia to protect their herds from predators. CCF currently breeds, cares for and places about 30 puppies a year. Each dog costs CCF over \$500 a year in care. These costs include food, vaccinations, new-owner support, veterinary care and long-term monitoring.

Once your donation has been processed, you will receive an e-mail with your tax receipt.
